

# HN + LVCC Partnership Powers Las Vegas Trade Shows

Since their rise in popularity in the early 1960s, trade shows have remained major attractions to the Las Vegas area. The Las Vegas Convention Center takes center stage, showing just what's possible at trade shows thanks to technology enabled by Hospitality Network.

## Las Vegas Convention Center At A Glance

## How Hospitality Network Powers Las Vegas Convention Center Trade Shows & Conferences

### High Bandwidth Networks

The LVCC gets speeds up to 1Gbps to support high-volume activities like live streaming and hybrid events thanks to HN's Robust Bandwidth & High-Speed Convention Center WiFi.

### Hybrid Conference Compatibility

HN expands the reach of Las Vegas Convention Center trade shows to a global audience, allowing in-person and remote attendees to engage with LVCC events using IoT technology.

### Expansive Network Access

HN offers seamless connectivity capable of handling a high volume of devices across exhibit halls and show floors to the LVCC's exhibit halls and show floors.

### Technology Support

HN provides dedicated concierge services to make sure events run smoothly, and 24/7 off-site technology support to make sure the people on the floor can stay focused on the things that matter most.

### Dynamic Television Services

HN provides dynamic access to cable across the convention center's premises. Our HD line-up of channels includes Local Broadcast, News, Sports, Weather, and Specialized, event-specific programming.
